Thank you for attending the RAPID 2012

# 3D Fabulous FASHION SHOW

## sponsored by Materialise

3D Printing is rapidly gaining popularity in the world of art and fashion. Materialise is excited to see the technology gain public attention. We are actively seeking opportunities for expositions at museums such as the recent Industrial Revolution 2.0 at the Victoria & Albert Museum in London, or on runways during the fashion weeks in Paris and Milan. We were excited to bring these amazing designs to the RAPID fashion show.

## Featured Designers

The opening portion of the show features hats from Brussels' master milliner Elvis Pompilio, necklaces by renowned designer Daniel Widrig, and a collection of stunning pieces that redefine how accessories can be worn by Niccolo Casas.

## Hat's Off to 3D Printing Challenge

The next pieces were the top 20 designs from the "Hat's Off to 3D Printing Challenge," conducted by Materialise's consumer division i.materialise. All of the designs were produced by Materialise at our headquarters in Leuven, Belgium.

## 3D FABulous Fashion Show Contest

The final pieces are designs that have never been seen before and were selected exclusively for the RAPID fashion show. The pieces were primarily printed by Materialise. A special thank you to Midwest Prototyping for printing the Lotus Top and the Seed of Life and to RePliForm, Inc. for nickel plating the Url necklace.

## Featured Designers

Elvis Pompilio | Daniel Widrig | Niccolo Casas
